By law, Social Security benefits increase automatically to keep pace with inflation. When there is a period of no inflation, the law does not permit an increase in benefits. Based on the Consumer Price Index (CPI) published by the Department of Labor, there was no rise in the cost of living during the past year, so your benefit will remain the same in 2010. The CPI is the federal government's official measure used to calculate cost-of-living increases.
